

Are You Looking for a SPECIAL Item?

By Anita Finley

We are so fortunate to have a place to go when we are looking for a special item either to use, wear, drive or to add to a collection.

I was speaking to one of the staff at Bristol Trading Company and he said that he was working with a gentleman who was looking for a Rolex Presidential watch with a blue face. At the time we spoke, he was able to find one with a white face. However, he must find this special watch that has gold with stainless or silver inlay and blue face and doesn't have the time bubble on it. Most Rolexes have the little time bubble. He has been searching for his client and hopefully, he will find one. If anyone can do it, he can!

The convenience of working with Bristol Trading Company means that if you have items you wish to have them sell for you, they have a concierge service.

Jean Ankner, CEO

They will come to your home and estimate their value and pick them up for you, take beautiful photographs to display the item in its best light and store them until they are sold. When they are sold, they will wrap and ship them for you. All you have to do is agree on the price they can sell it for and then you just wait

for the check to be sent to you. They have experienced professionals who will estimate the correct price to start the bidding and most probably, you will get more for those items than you anticipated. You certainly will get more courtesy and attention than you expected.

When I inherited my mother's silverware, I had put it away for a few years until it was clear I was not going to use it and at the insistence of my husband, I decided to sell it. I had considered bringing it to a consignment shop, but somehow that didn't feel right. Then I tried to sell it to friends who I had heard were looking for silverware, but that was uncomfortable...bargain with them, etc. So it sat in the closet until I heard about Bristol Trading Company and met their staff. I was convinced they were the ones to sell it. I was correct. Within two weeks of bringing it to them, they sold it for much more than they thought it would bring. That's called SUCCESS!
