BoomerTimes & SeniorLife *Extraordinary Advertiser of the Month*
The Cancer Institute

[Publisher's Note: We have so many loyal and dedicated advertisers who have a special mission as we do to reach the Boomer and Senior population to better their lives. Here's our monthly feature to acquaint you with these "shining stars" of BoomerTimes & SeniorLife.]

At The Cancer Institute, we are able to provide outstanding care with state-of-the-art equipment and use of latest advancements in radiation therapy. We are the only one in the area to offer Tomotherapy-IMRT (Intensity Modulated Radiation Therapy) which is one of the leading technologies in radiation therapy. Tomotherapy-IMRT uses a complex treatment planning system in conjunction with digital-leaf collimators to deliver optimum dose to the tumor region while minimizing radiation and side effects to surrounding normal tissues. Studies show that this type of IMRT is superior to the common multi-leaf collimators.

oncians, nurse practitioner, physicists and radiation therapists collaborate throughout a patient's course of treatment to provide the optimum individualized care that each of our patients deserve. We maintain an effective relationship with your primary physician and other oncology doctors to provide you the best care possible. Our friendly staff strives to give you the support you need to have a wonderful experience with us. Transportation services are available to patients who may need them.

Dr. Bruce Horowitz, ABR Certified, is the Medical Director of The Cancer Institute. He has a national reputation from his residency and fellowship

Brachytherapy, a procedure that utilizes radioactive seeds and 3D imaging, is another sophisticated treatment available at The Cancer Institute. We are the only institute in the area to deliver CAT scan guided (real time) dosimetry for LDR and HDR brachytherapy (implants) for body and brain radiosurgery, thus delivering the treatments far more precisely.
 Our team of professionals—physi-

in brachytherapy from Memorial Sloan-Kettering Cancer Center, a rare honor bestowed to the best of oncology physicians.

Our offices are conveniently located at 3651 FAU Boulevard, Suite 100 Boca Raton, FL 33431 and 4832 Okeechobee Boulevard West Palm Beach, FL 33417. Please call us at (561) 347-8001 or (561) 616-9996 for additional information.
