

CONQUER DRY, WRINKLED, CREPE-PAPER SKIN.

The all-natural answer to aging skin, HIDE THE YEARS® skin creams are an intensive patent-pending formulation of rare super red palm oleins and other natural oils, designed to restore and replenish your skin. Our exclusive DAY GOLD™, NIGHT GOLD™ and BODY GOLD™ blends of nutrients and antioxidants are absorbed deeply into the skin, fighting free radicals that cause cellular damage.

A first in the world of skin care creams. Dermatologist tested and approved, HIDE THE YEARS works to revitalize, restore moisture, and diminish the appearance of fine lines and crepe-paper skin with long lasting effects. As we age, our body's production of oil is reduced, and the skin on our face and body begins to look dry and crepey. HIDE THE YEARS helps to restore dry wrinkled skin, and will also help prevent further signs of aging skin.

HIDE THE YEARS alleviates dry, crepe-paper skin on your face & body AND:

- Provides powerful antioxidant protection and benefits
- Replenishes cracked, thin, aging skin
- Fortifies firmness and elasticity
- Returns a moist, youthful, radiant glow
- Restores your skin's naturally smooth feel
- Provides for smooth makeup application

No chemicals, preservatives or emulsifiers. HIDE THE YEARS natural creamed oil is one of the richest sources of antioxidants and tocotrienols in the world.

You're never too young to hide the years.

THE AMAZING RESULTS OF JUDY'S COMPARISON TEST

Judy M. from Atherton, CA, came to us for help with her dry, wrinkled, crepe-paper skin. "I've used many products on the crepe-paper skin areas of my arms with no success. When I tried HIDE THE YEARS cream, I faithfully applied it to my right arm only. After about a week, I began to see a big difference! Another week of treatment, and there was no doubt at all; HIDE THE YEARS works! Now, I have no more crepey skin on my arms...and am thinking of asking for enough cream to fill my hot tub so I can immerse my entire body in this 'miracle cream'..."

PHYSICIANS RECOMMEND HIDE THE YEARS:

"It's hard to believe in this industry that a product could improve skin this much, but I have seen the results. HIDE THE YEARS works well in combination with the treatments performed in our MediSpa. Patients notice a dramatic difference in the texture of their skin within just a few weeks."
